SKETCH NOTES

GRAMMAR SKETCH NOTES

TEACHING NOTES:

Teachers can complete a projected version of the notes as students follow along.

Begin with the definition of word analogies under the title of the notes.

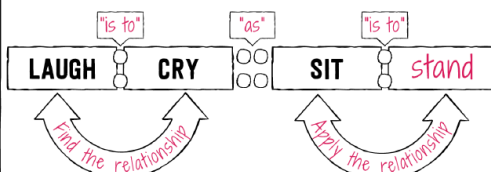

Explain to students that the colon in a word analogy stands for "is to," and the double set of colons stands for "as." Students will complete the labels above the example analogy.

Write the two steps for solving analogies ("Find the relationship." and "Apply the relationship.") inside of the two arrows. Complete the analogy by adding "stand."

Describe the relationship between the word pairs. Using the two steps, solve the remaining analogies. The last analogy is blank so students can create their own.

WORD ANALOGIES

An analogy is a comparison between two word pairs that have a common relationship.

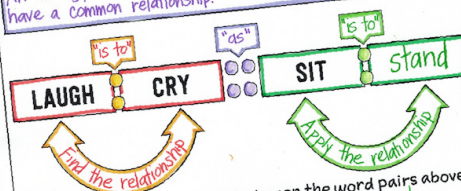

*Describe the relationship between the word pairs above?
Laugh and cry are synonyms, and sit and stand are synonyms. "Laugh" is to "cry" as "sit" is to "stand."

SHOUT IS TO YELL	AS	SHUT IS TO	close
LOW IS TO high	AS	ABOVE IS TO	BELOW
BUY IS TO SELL	AS	bright IS TO	DIM
shy IS TO TIMID	AS	ERROR IS TO	MISTAKE
back IS TO front	AS	fast IS TO	slow
