

5th Grade Math Spiral Review

36 WEEKS OF SPIRAL REVIEW

- 36 Weeks of Spiral Review – A full-year's worth of quick, daily practice covering essential math skills and concepts.
- Monday-Thursday Practice Format – Each week includes 20 focused questions (5 per day) that gradually increase in complexity.

5th Grade Math Spiral Review

100% EDITABLE STUDENT PAGES

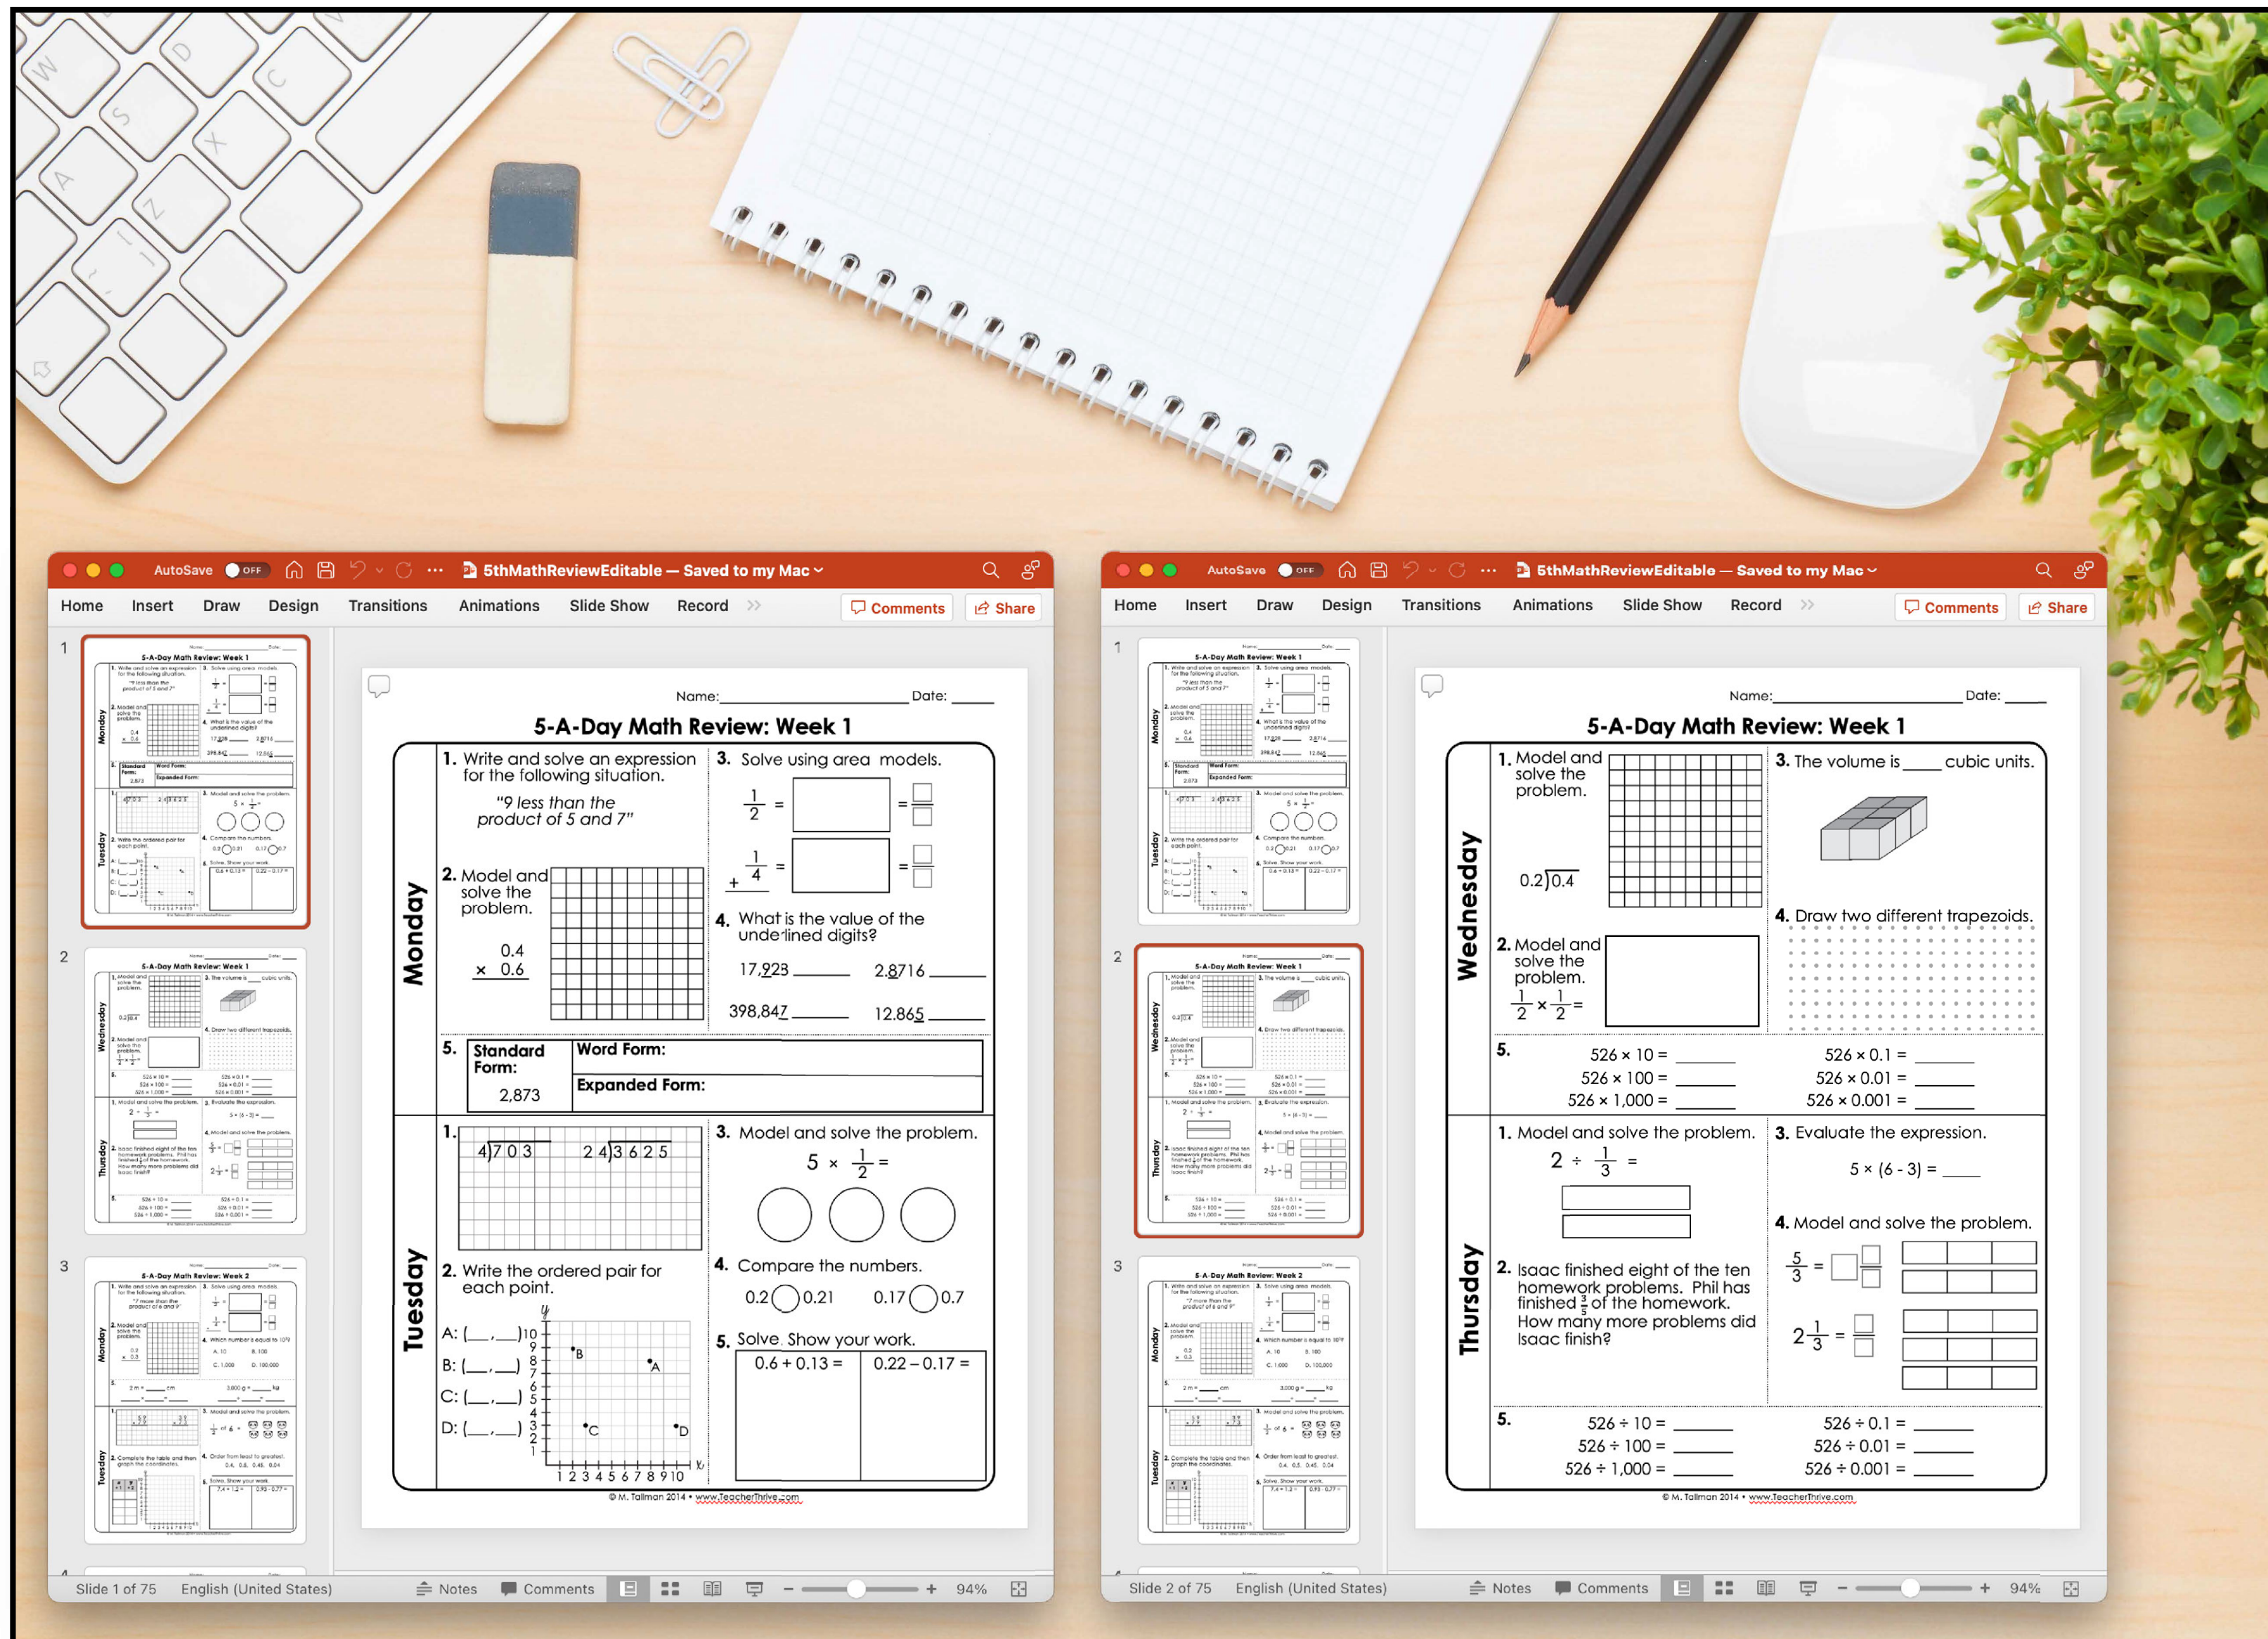

Customize the content to fit your classroom needs and curriculum.

Need to tweak a question?

Add your own content?

Remove problems your students are not ready to review?

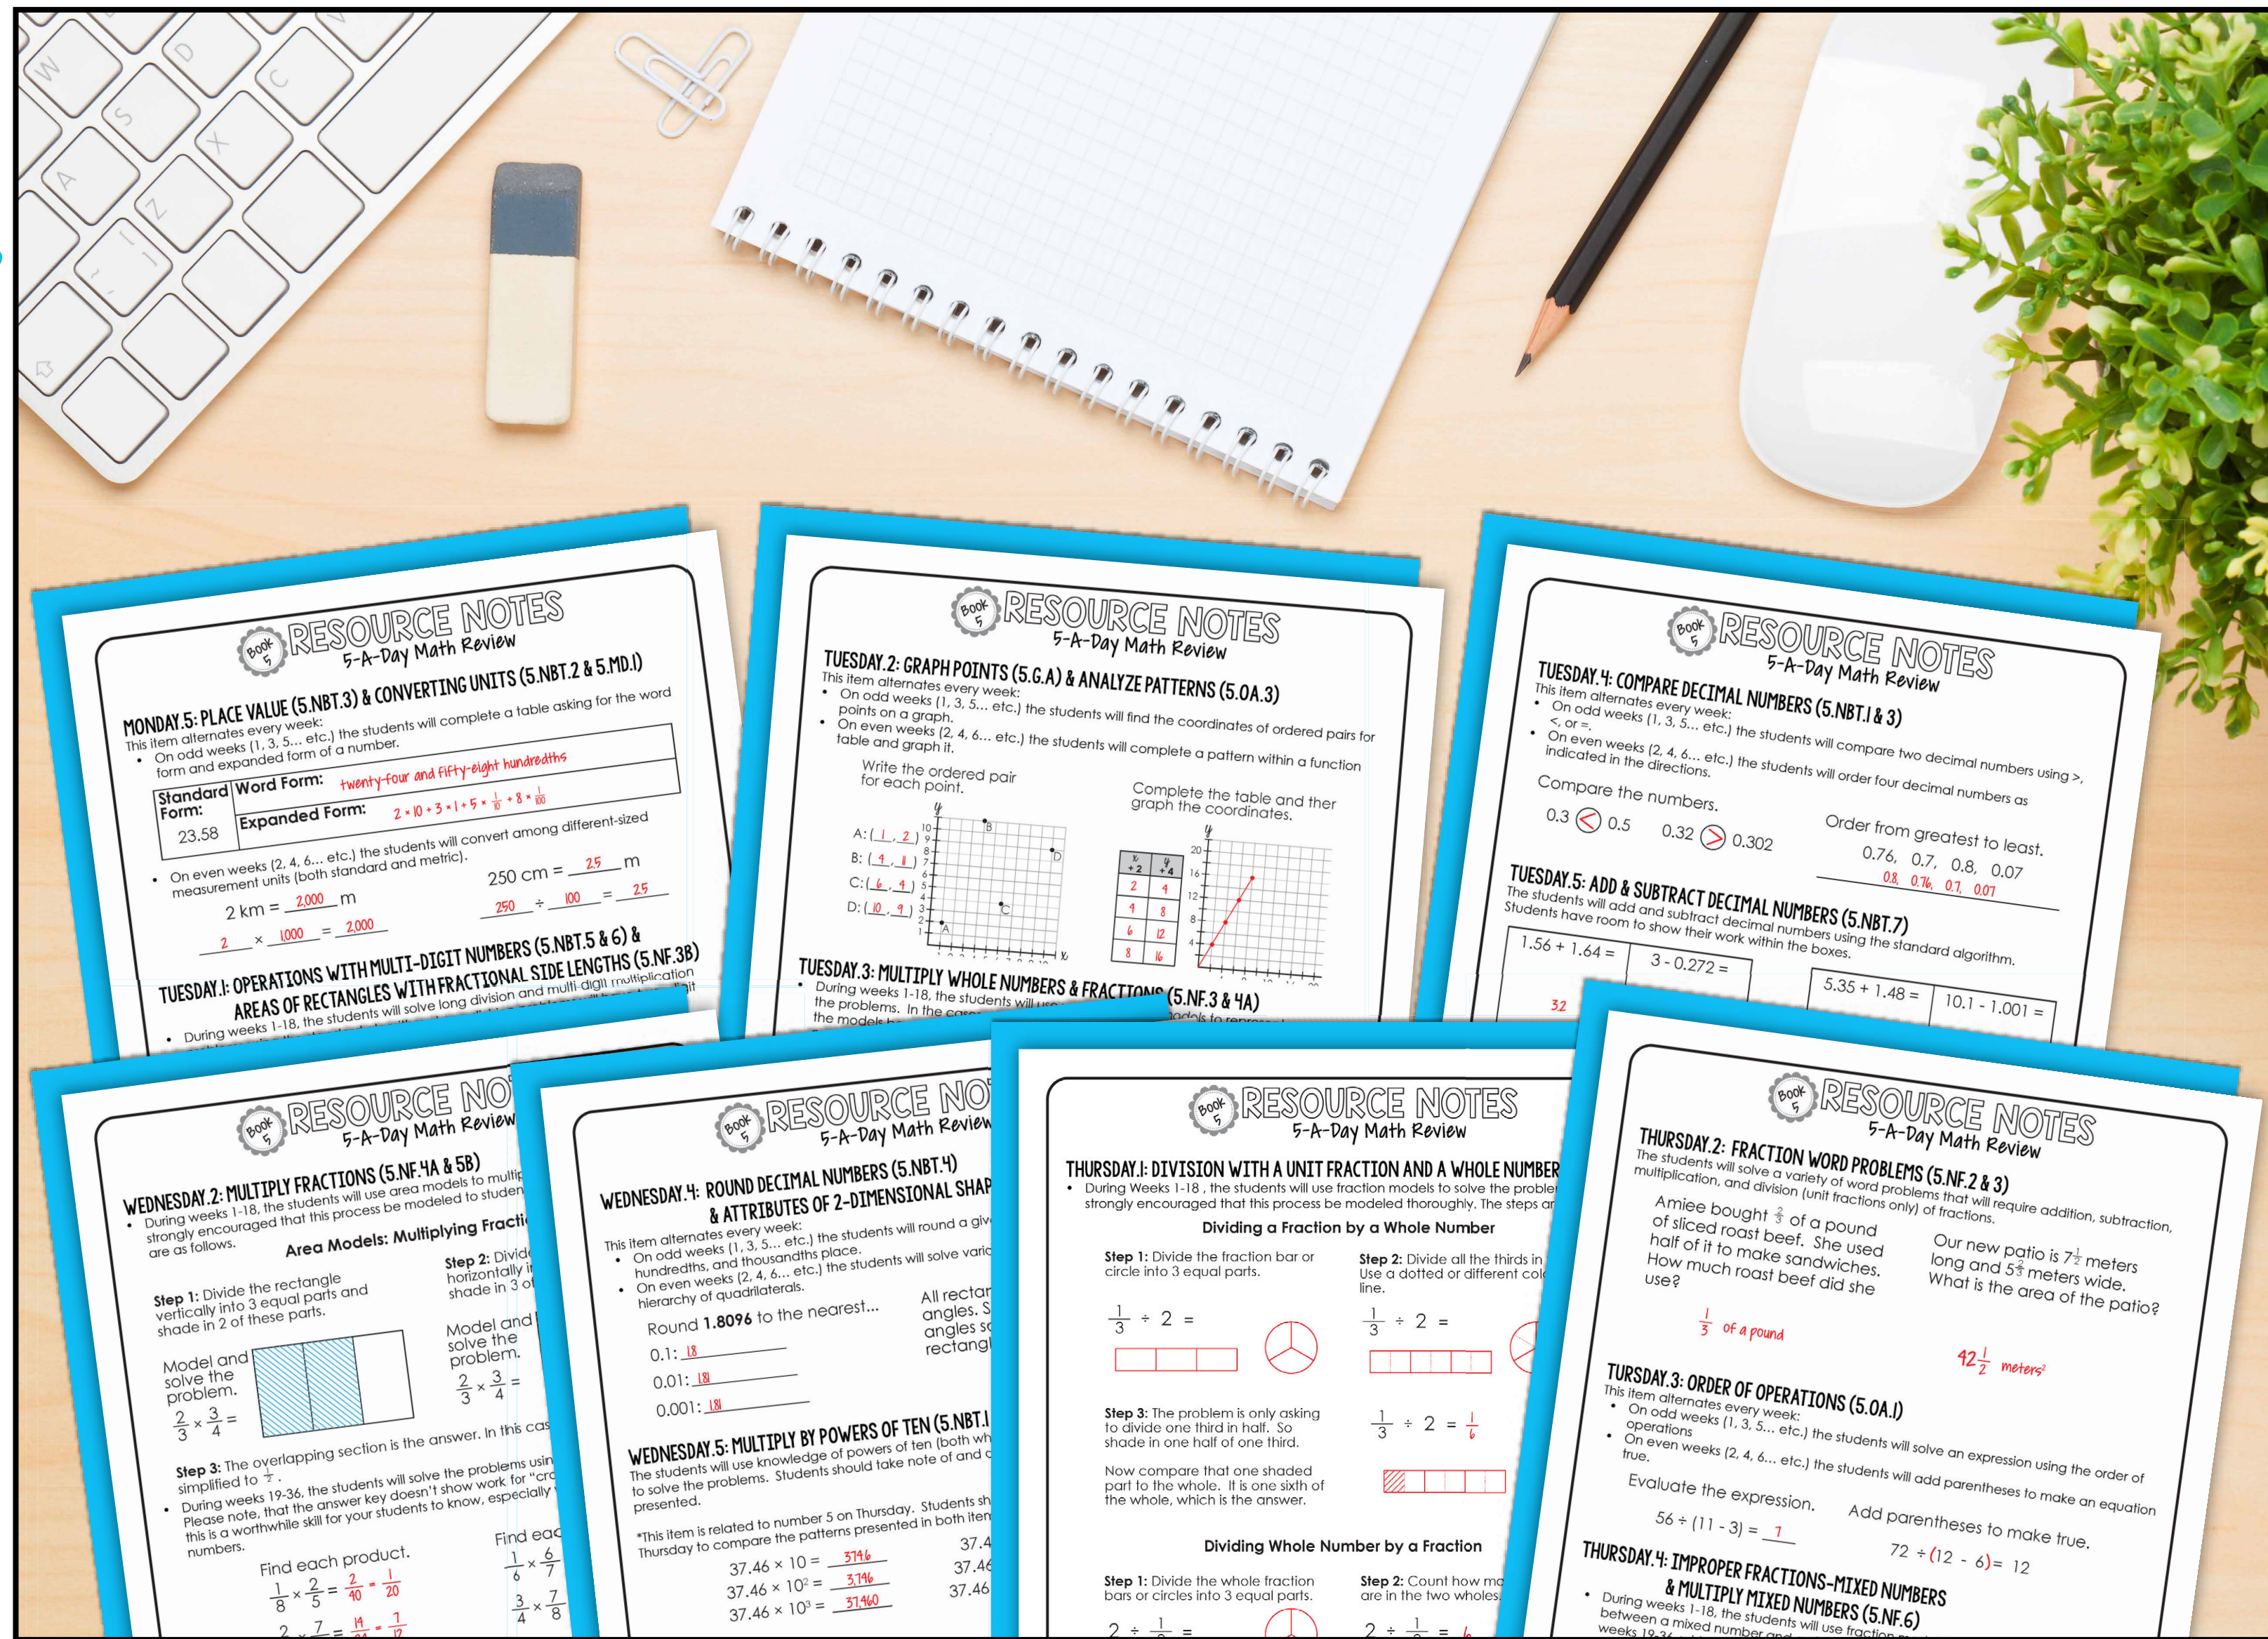

This resource is fully editable in PowerPoint for easy modifications!

5th Grade Math Spiral Review

DETAILED TEACHING NOTES

- Teacher Notes – Detailed teaching guidance to help you introduce, model, and review concepts efficiently.
- Each topic in the weekly review is clearly outlined so you know exactly what is covered each day of the week.

5th Grade Math Spiral Review

COMPREHENSIVE AND SYSTEMATIC

Preview, review, and reteach essential math skills every week!

NOTE: This resource was written based on fifth-grade content standards. However, none of the student materials are labeled with a grade level. This will allow teachers to **use this resource across grade levels.**

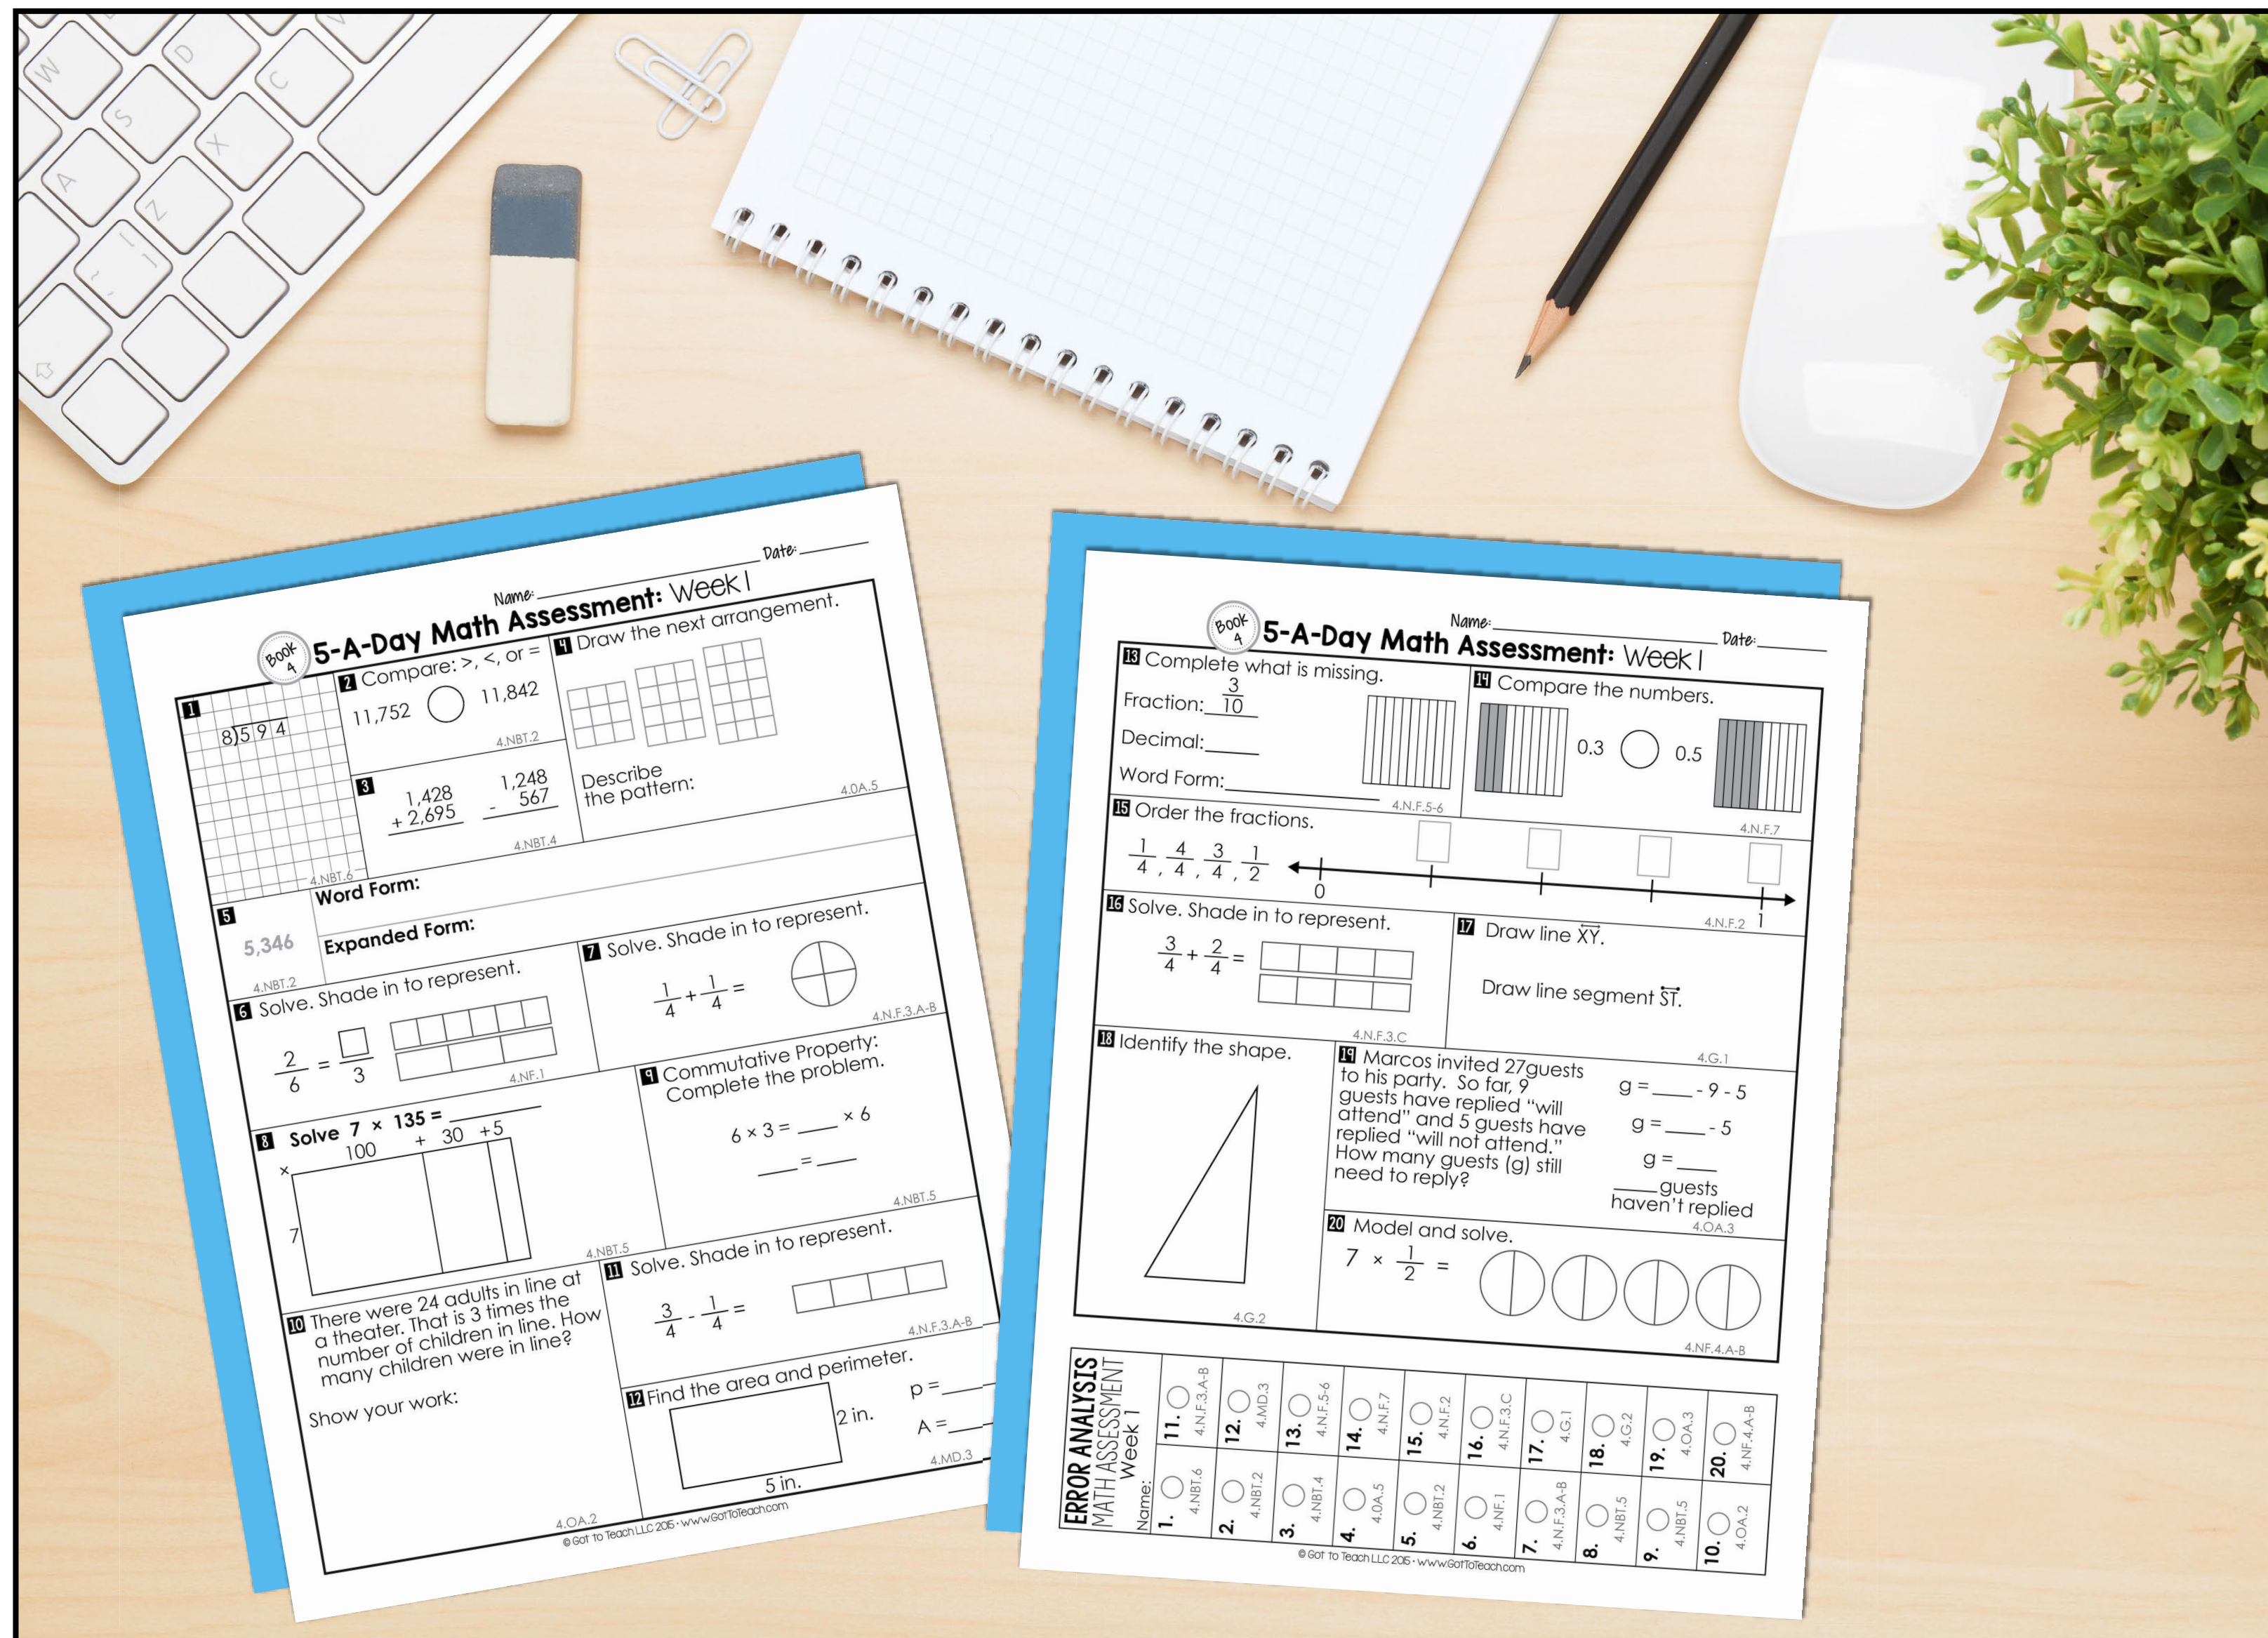

Topics Covered:

- Write and Interpret Numerical Expressions
- Multiply Decimals
- Add & Subtract Fractions
- Place Value
- Powers Of Ten Exponents
- Place Value
- Converting Units
- Operations with Multi-Digit Numbers
- Areas of Rectangles with Fractional Side Lengths
- Graph Points
- Analyze and Interpret Patterns
- Multiply Whole Numbers & Fractions
- Compare Decimal Numbers
- Add & Subtract Decimal Numbers
- Divide Decimals
- Multiply Fractions
- Round Decimal Numbers
- Attributes of 2-Dimensional Shapes
- Multiply and Divide by Powers of Ten
- Division with a Unit Fraction & a Whole Number
- Fraction Word Problems
- Order of Operations
- Improper Fractions-Mixed Numbers
- Multiply Mixed Numbers

5th Grade Weekly Math Assessments

36 WEEKS OF ASSESSMENTS

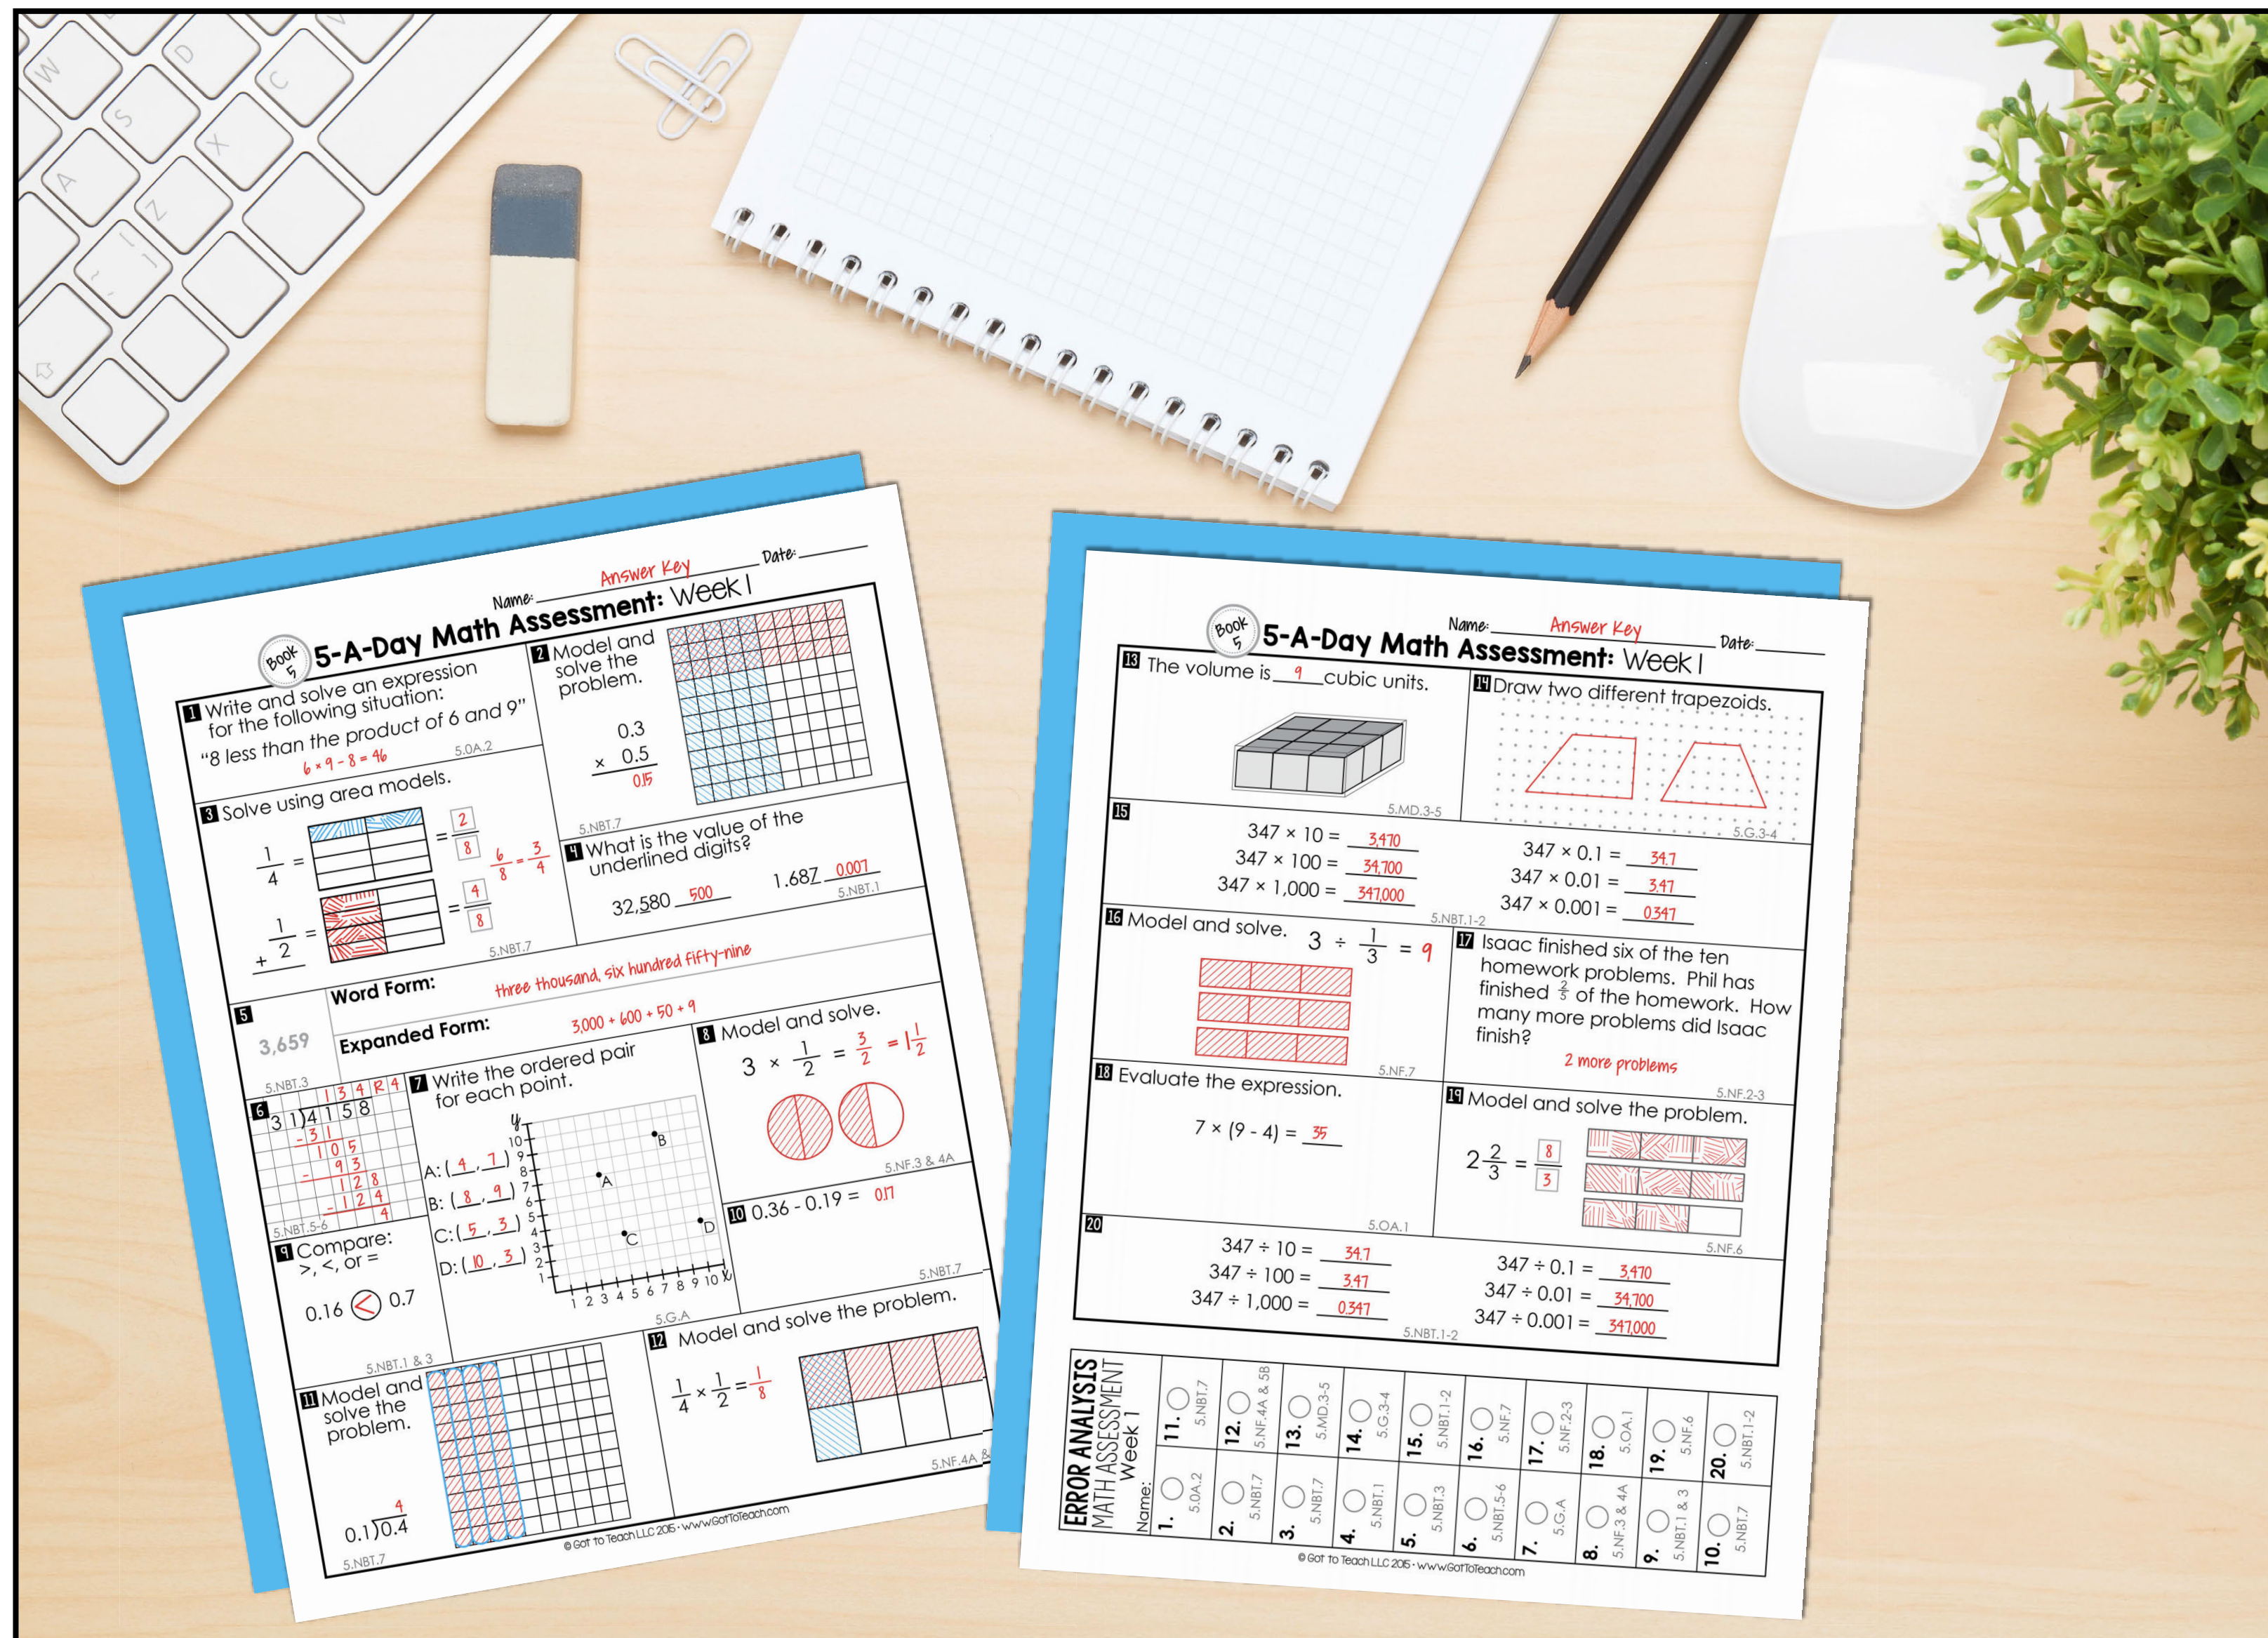

Simplify your math instruction with these 5th Grade Weekly Math Assessments—designed to **build consistency**, **track progress**, and **support mastery of essential math skills all year long!**

5th Grade Weekly Math Assessments

DETAILED ANSWER KEYS

Streamline grading and enhance instructional impact with clear explanations and examples. Teachers can easily **identify patterns in student errors**, offer **targeted feedback**, and **support reteaching** when needed. These keys serve as a valuable reference for both educators and students, **promoting consistency**, **saving time**, and reinforcing the "why" behind correct answers.

5th Grade Grammar Spiral Review

DETAILED TEACHING NOTES

- Teacher Notes – Detailed teaching guidance to help you introduce, model, and review concepts efficiently.
- Each topic in the weekly review is clearly outlined and explained, making this the perfect no-prep resource that teachers can even leave with a sub!

5th Grade Grammar Spiral Review

STUDENT HANDBOOK

- Student Handbook – A valuable reference guide explaining key grammar and language rules.
- Easy for students to assemble. Just print and go!
- Excellent reference tool for students when completing their daily reviews!

5-A-DAY LANGUAGE REVIEW Handbook (Book 5)

MONDAY

TUESDAY

WEDNESDAY

THURSDAY

MONDAY

MONDAY.1: INTERPRETING SIMILES & METAPHORS

For this item of the review, you will identify if a sentence contains a simile or metaphor. You will then underline the two objects that are being compared to each other.

Similes compare two unlike or unrelated things using the words like or as.
Ava is as tall as a skyscraper.

Metaphors compare two unlike or unrelated things by saying that one actually is the other.
My sister is an angel.

MONDAY.2: THE ORIGINS & MEANINGS OF IDIOMS

For this item of the review, you will research the origin and meaning of a given idiom. You will then write a sentence using the idiom in its proper context. You can conduct a simple Internet search, such as "the origin/meaning of 'break a leg.'" Remember to evaluate the validity of your search results; the Internet is filled with inaccurate information.

MONDAY.3: GREEK & LATIN AFFIXES & ROOTS

For this item of the review, you will break apart a word into its prefix, root/base, and suffix.

When breaking words apart, you will need to identify if the "middle" is a base or a root.

Base Word A base can stand on its own: "trust" as in the case of "mistrusts." >>> mis- trust -s

In cases where a base word was altered for the ending, you should write what the word was before it was modified.

Example: retraced- the "e" in trace is dropped for the -ed ending >>> re- trace -ed

Root Word A root cannot stand alone: "fict," as in the case of "nonfiction." >>> non- fict -ion

The main purpose is for you to identify the various (meaningful) parts of the words, so if your segments are off by a letter of two, that's okay.

TUESDAY.1: FORM AND USE PERFECT VERB TENSES

For this item of the review, you will complete a sentence with the correct perfect verb tense.

Past Perfect: This verb tense uses the word had with a past tense verb. It expresses the idea that something occurred before another action in the past.

• If Min Jung had read the book, she would have passed the test.

Present Perfect: This verb tense uses the words has or have with a past tense verb. It expresses the idea that something has occurred at an unspecified time in the past.

• Mark has been to the zoo over twenty times.

• Astronauts have traveled to the moon.

Future Perfect: This verb tense uses the words will have with a past tense verb. It expresses the idea that something will occur before another action in the future.

• I will have forgotten my math facts before next fall.

TUESDAY.2: RECOGNIZE AND CORRECT VERB TENSES

For this item of the review, you will identify the incorrect verb or verb phrase in a sentence. Then you will rewrite the sentence with the correct verb or verb phrase.

Verb tenses must remain the same within a sentence. They should convey the correct time, sequence, state, and condition.

• I will go to the library and check out a book.

• We went to the zoo and saw the elephants.

TUESDAY.3: ANALOGIES- WORD RELATIONSHIPS

For this item of the review, you will solve a word analogy. The key to solving these is knowing the seven common types of word analogies.

Function ~ microwave : heat :: helmet : protect
The function of a microwave is to heat. :: The function of a helmet is to protect.

Degree ~ fascinating : interesting :: critical : important
Something that is fascinating is very interesting. :: Something that is critical is very important.

Lack ~ dishonest : integrity :: hateful : peace
A dishonest person lacks integrity. :: A hateful person lacks peace.

Characteristic ~ sandpaper : coarse :: crime : illegal
A characteristic of sandpaper is to be coarse. :: A characteristic of a crime is to be illegal.
