MONDAY.3: USE CONTEXT CLUES

For this item of the review, you will read a short passage and determine the meaning of an unknown word using context clues.

Context clues are the words and phrases in a text that help you understand the meaning of an unfamiliar word. The clues may be present in several forms:

Inferences The influential mayor could easily convince the citizens to do anything.

Definitions He was an influential mayor who knew how to use his power to cause changes.

Examples The mayor is very influential, so it is no surprise that other leaders and business people listen to his advice.

Antonyms The powerless people were no match for the influential mayor, who wanted to build an office building on their land.

Synonyms The mayor is very influential, and because he is so powerful, he always gets what he wants.
