→ 9:00 PM
→ 12:00 AM

NOON

PM **MIDNIGHT** → 12:00 AM
Post meridiem
is Latin for
"after midday."

Diagram: A horizontal timeline showing the progression of time. On the left, a crescent moon with stars is labeled "midnight". An arrow points to a sun labeled "noon". Below this, a yellow box with a clip says "A 24-hour day is divided into two 12-hour halves." Another arrow points from "noon" to a crescent moon with stars labeled "midnight".

Icons: The right side of the page features a vertical column of icons corresponding to the times. It starts with a crescent moon and stars for 12:00 AM and 1:00 AM, followed by a sun with an upward arrow for 6:00 AM labeled "SUNRISE", then suns for 7:00 AM through 11:00 AM, a sun with a downward arrow for 6:00 PM labeled "SUNSET", and finally a crescent moon and stars for 7:00 PM through 9:00 PM and 12:00 AM.

DETAILED ANSWER KEY

MATH SKETCH NOTES

MATH SKETCH NOTES

These 3rd-grade math sketch notes (AKA doodle pages) are a powerful learning and teaching tool. They cover essential math concepts and procedures for students in a visually appealing way. You can use this resource to supplement any math curriculum, and they are perfect for previewing/pre-teaching or reviewing/reinforcing.

These sketch pages are like mini anchor charts that your students actively create and can be referred to in the future.

WHAT'S INCLUDED:

- Blank student note page
(two sizes: 8.5 x 11 & composition notebook size for INBs)
- Detailed answer key
- Step-by-step PowerPoint

GUIDED NOTE-TAKING

Guiding your students through the note-taking process is so easy and requires almost zero preparation!

1. PowerPoint: Each sketch note page comes with a step-by-step PowerPoint that you can use to guide your students as they complete their notes.
2. Document Camera: Use a document camera to project a blank copy of the notes. Use the answer key provided to complete the note page in front of your students.

WHY SKETCH?

Sketch notes present your students with a meaningful and engaging activity they will love. Doodle note-taking activates verbal and visual modalities to capture concepts. The whole brain is absorbed in hearing, synthesizing, and retaining ideas. This high level of engagement helps students retain the content and leaves little room for distraction.
